SUMMARY

I'm a software developer originally from Edmond, Oklahoma. I graduated from Oklahoma State University with an MIS degree. I recently moved to the Twin Cities to take an Android development position with The Nerdery.

EXPERIENCE

THE NERDERY
ANDROID DEVELOPER
05/2016 - PRESENT

The Nerdery is a digital strategy consultancy of human-centered designers and software engineers.

- Helped ship several successful Android apps, including the HyVee application in the Google Play Store.
- Setup continuous integration and deployment for internal library artifacts
- Setup continuous integration and automated testing for several Android projects
- Revamped discipline standards and guidelines

PAYCOM
SOFTWARE DEVELOPER
06/2015 - 05/2016

- Implemented a data access layer and rearchitected an existing Winforms application
- Rewrote internal tax form printing library responsible for an annual $20mil revenue

VOLUNTEER

GOOGLE DEVELOPERS GROUP OSU-STILLWATER
ORGANIZER
01/2012 - 12/2016

Helped found a local chapter of a Google outreach group focused on spreading knowledge of their technologies.

EDUCATION

OKLAHOMA STATE UNIVERSITY
BACHELOR MANAGEMENT INFORMATION SYSTEMS
3.8
05/2011 - 05/2015

REFERENCES

❝ *I worked closely with Kyle during his first few months at Paycom. He was very eager to learn and picked up new skills and techniques quite quickly. It wasn't long before he moved on to be a real leader on his team and proved to be a real asset to the company. I enjoyed my time working with Kyle and would definitely work with him again.*

— TRAVIS FRELS

❝ *Kyle is a developer of rare skill and is eager to learn new things. I had the pleasure of working with him and watching him learn new skills and techniques rapidly, while also growing in his appreciation for a disciplined approach to software development. Kyle is a quick study and dives passionately into complex technical topics with great results. I firmly believe that any technical problem that comes his way will be overcome quickly with good engineering practices to boot.*

— PHILLIP MARTIN
